

BHPN Therapy Provider Meeting

January 20, 2022

The background of the slide is a solid green color with a subtle, light-colored network pattern. This pattern consists of numerous small circles connected by thin lines, creating a web-like structure that covers the entire background.

Welcome!

Quarter 1
BHPN Therapy Provider Meeting

theBHPN
behavioral health provider network

Today's Agenda

1. Welcome

2. Announcements & Reminders

3. Discharge Expectations

4. Report Reminders

5. BHPN Guidelines

6. Questions

enhancing your **IMPACT**

theBHPN annual conference 2022

Conference Initiatives

- Reinforce the application and effectiveness of **caregiver-mediated treatment and caregiver engagement** in progress
- Expand our knowledge of the **diversity of the current treatment population** in Behavioral Health Treatment and unique needs of caregivers
- Emphasize the roles and benefits of a multi-disciplinary treatment team to **client outcomes and family quality of life**
- Increase knowledge and *application* of treatment planning to reflect clients' **meaningful progress and family social significance**
- Understand how Behavioral Health Treatment is **impacting the community** and individuals' role in that impact

chat

A naturalistic developmental
intervention for young children

What is Chat?

- Chat is a naturalistic-developmental and language-based model of intervention. This routine-based, parent-mediated program is available for children 6 years of age and younger and their families.
- Chat is a fun, developmentally and routine-based approach to treatment for families looking for a more naturalistic model or an alternative to ABA.

Implemented as a one-tier or two-tier parent-mediated program

- High-level
- Mid-level

The recommended high-level clinicians

- LMFT, LCSW, Psychologist, OT, SLP, LPCC

If you are interested in learning more about Chat, please join us at one of our upcoming pop-up meetings to learn more!

1/20/22 12:30-1:30

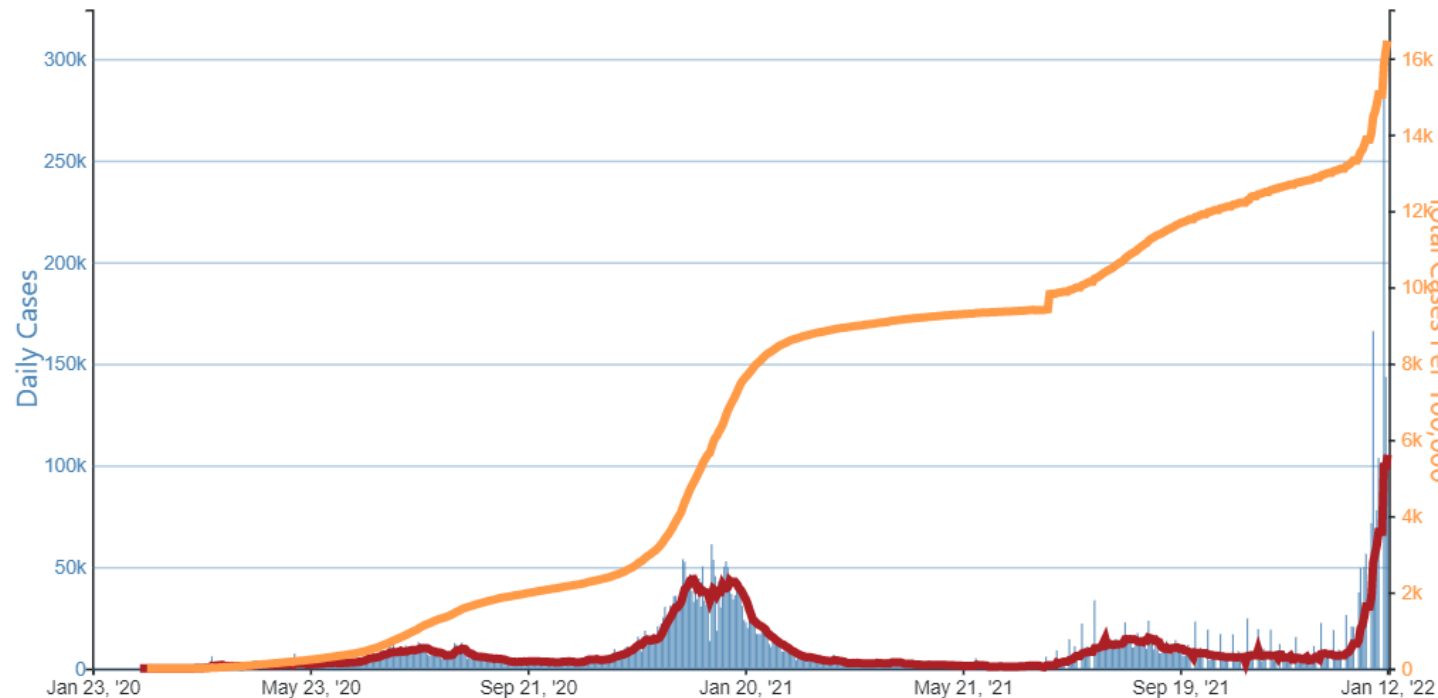

1/26/22 11:00-12:00

Great opportunity to grow with new referrals!

Increased COVID Exposure

Over the past two weeks, our providers have submitted a significant increase in COVID exposure reports.

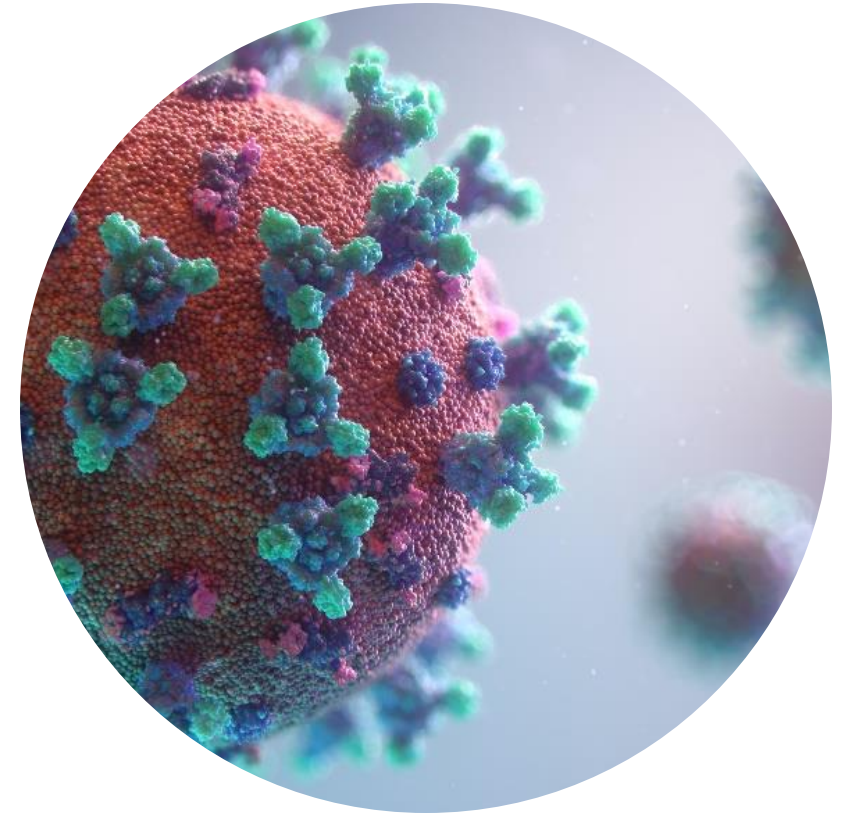

Daily Trends in Number of Cases and Cumulative Incidence Rate of COVID-19 Cases in California Reported to CDC, per 100,000 population.

- Per CDC, “As of January 5, 2022, the current 7-day moving average of daily new cases (586,391) increased 85.7% compared with the previous 7-day moving average (315,851).”
- As a reminder, please submit the direct exposure form — Call Customer Service within 2 hours of known **direct exposure** and send in completed form within 24 hours.

COVID Reminders

- Encourage families and clients to **follow CDC guidelines**, including mask toleration.
- You still **must use PPE** even if vaccinated.
- If a practitioner is experiencing any symptoms, regardless of vaccination status, in-person treatment should not be performed by that practitioner.
- Remember that telehealth is a great option if there are any concerns regarding exposure.
- Don't forget about the **"COVID-19 & the BHPN Informational Guide"** for Caregivers. You can find a copy of the handout in the Provider Portal.

Discharges

- Submit discharge reports after the final session date and within at least 10-days of the final session.
 - Clients who may need to continue with another vendor cannot move forward until KP receives the report.
- Due to authorization issues, for all reports indicating discharge, including clinical discharge, please send a **notification email to theBHPN** indicating the discharge and anticipated discharge date.
 - This will alleviate the need to submit the report when the progress note is due.
- If there are concerns with scheduling which is leading to an administrative discharge, first **notify BHPN** to determine if there is another provider who can support the family's scheduling needs before submitting report.

Reports

- Please be sure to add an N/A in comment portion under the parent's name in "Caregiver Agrees" section IF there is no information to add.

Caregiver agrees with the recommendation?	Yes / No	Date discussed: Select Date
Caregiver Name: Comment:		

- Please ensure revisions are completed by the end of the next business day.
- Revision feedback is now sent via auto emails.
 - CC pertinent individuals when submitting reports so they will be included on any automated revision feedback emails.
- Please use the KP Instructional Guide Sheet when completing all reports.
- Be sure to use the diagnosis code found in the authorization.
- Speech Therapy and Occupational Therapy transfer reports are no longer needed, unless the progress note is due.

BHPN Guidelines

Parent Concerns Regarding Additional Service Lines

- Families should contact KP member services or speak to their pediatrician.

Collaboration vs. Co-treating

- Over lapped sessions or co-treating: simply bill as usual.
- Collaboration: should start with the BCBA assigned to the case, please reach out to theBHPN if you need contact information.

WSU (Weekly Status Update)

- Per contract with KP, an appointment within 10-days of placement/first date must be offered. BHPN must share this information with KP.
- If a family declines placement or there is no contact, an email must be sent to theBHPN@theBHPN.org vs. documenting on the WSU.

BHPN Guidelines Continued

- Re-Authorization treatment letters will only be sent if there is clinical information to disseminate.

BHPN Portal

- Check at least monthly for calendar events and BHPN updates.
- Upcoming Therapy Provider meeting dates:
4/28/22, 7/28/22 and 10/27/22 at 10:00 AM
- BHPN has received feedback that a notification would be valuable and our team is working on a solution. For now, you can add calendar reminders from the Portal.
